Pursuant to the March 29, 2005 Notice of Allowance and Fee(s) Due, the fees were indicated to be \$15.00, which reflects fee increases of December 8, 2004. **Applicant hereby requests, pursuant to M.P.E.P. 1308.1, that the previously-paid Issue Fee and extra copies be applied to the issue fee currently due, as indicated by the \$15.00 balance set forth in the Notice of Allowance and Fee(s) Due. Sir:

The Examiner indicates:

The prior art fails to disclose the combination of a mount securable to the base at a first position juxtaposed adjacent the trunnion and a second position wherein the mount extends in a second direction opposite from the base; and a hitch coupled with the mount, including a first ball and a second ball which are formed together as a homogenous monolith of a single material which extend in first and second directions. (The specific disclosure of Avery in the IDS filed 2/28/05 has been considered but if a first ball and second ball which are formed together as a homogenous monolith of a single material were to replace the single ball of Avery, this would render the device inoperable, since the second ball would either interfere with the portion, 4, or the side portions, 12 and 13.)

Applicants concur with the reasons as stated by the Examiner insofar as they comprise a summary, and are exemplary and not limiting. However, the independent claims as allowed include other and different language than that specified by the Examiner, and the allowed dependent claims include other and further features and elements. Accordingly, the scope of the claims must be determined from the literal language of each as a whole, as well as equivalents thereof.

Respectfully submitted,
